

EMILY NISHIOKA NEWMAN, M.A.

Research Associate

EDUCATION:

M.A., University of Chicago, Master of Arts in the Social Sciences Program, 2010

B.A., Kenyon College, Psychology, 2005

FIELDS OF SPECIALIZATION:

Survey research; clinical research; qualitative and quantitative research methods, learning and memory

PROFESSIONAL HISTORY:

Ms. Newman joined Sociometrics Corporation in 2010, and is currently working on the HIV/AIDS Prevention Program Archive. Before joining Sociometrics, Ms. Newman worked at the Survey Research Lab at the University of Chicago on a cancer-risk survey study after completing her M.A. degree. In addition to survey research, Ms. Newman also has experience in clinical research, and she worked at the San Francisco Clinical Research Center as a research coordinator for three years. In addition to health-related research topics, she is also interested in cognitive psychology and the study of memory.
