

**JOHNSON & JOHNSON CORPORATE CONTRIBUTIONS EVALUATION
INFRASTRUCTURE PROJECT**

This aim of this project was to work with Johnson & Johnson (J&J) Corporate Contributions (CC) Directors to develop a comprehensive yet flexible evaluation infrastructure that will permit systematic, ongoing assessment of progress-toward-outcomes by J&J CC grantees, the various J&J CC giving programs, and J&J CC as a whole. This phase of the project focused on a subset of J&J programs that Directors designate the highest priority for evaluation.
