

SOCIOMETRICS PROJECT NO. 225

Shingle Springs Tribal Health Technical Assistance and Training for SiHLE Implementation

Shingle Spring Tribal Health will implement SiHLE, as part of the PREP Teen Pregnancy Initiative, with Native American young women. The scope of work associated with this project includes start up and ongoing training, support and capacity building for implementation of the SiHLE program. In addition, consultation on adaptation of the SiHLE curriculum will be provided to ensure fidelity and culturally competent and sensitive appropriateness of the program.
